Speech to Text (STT) in Kurzweil 3000 for Web Browsers (www.Kurzweil3000.com)
Using the Chrome browser only.

- Click the **Speech to Text button**.
  The button will turn green when it is listening.
- Place your cursor where you want the text to appear, or highlight text
  to format.
- Speak clearly into your device or external microphone (mic) to dictate text, punctuation and
  formatting. Click the button again to turn it off.

The first time you use this feature, it will ask permission to use the mic.

To allow access to the mic for Kurzweil 3000 if you previously blocked it:
- In Chrome, go to "Customize and control Google Chrome"
- Select Settings
- Open Advanced
- In Privacy and Security, select Content settings
- Select Microphone
- In the Block section, remove Kurzweil3000.com

If you are not using the Chrome browser, the STT button will not appear.

Use STT to dictate into:
- Text documents including .kes, .rtf, and
  .docx
- Outline view
- Brainstorm view
- Column Notes
- Sticky Note
- Text Note
- Bubble Note (text portions only)
- Bookmark Descriptions
- Edit Underlying Text corrections
- Zone Editor OCR override text

Use the existing feature lock for this new feature (Teacher and Admin logins only).
Go to **Users > My Team > Miscellaneous Feature Locks**
