

## New Features Update – October 2020

V20.04 (Windows) and V20.04 (Macintosh)

### Items for www.kurzweil3000.com on iPad

1. \_\_\_\_\_

Highlighters menu – enabled for image based documents

This menu for iPads works in a manner consistent with the www.kurzweil3000.com Highlighters menu on a laptop or desktop computer.

Tools enabled:

- Highlighters
- Highlight Extraction
- Advanced Extraction options
  - Extraction order
  - Notes
  - Bookmarks
  - Highlights formatting

**TIP:** Using the Document View menu “Fit Width” Zoom setting can make it easier to use the highlighter pen on the document.

## Column Notes menu – enabled for image and text based documents

The screenshot shows the Kurzweil 3000 interface. The main document is titled "Log On!" and contains text about computers and the internet. The Column Notes menu is open, showing a table with three columns: Main Ideas, Supporting Ideas, and Other. The menu is currently empty.

Main Ideas	Supporting Ideas	Other

This menu for iPads works in a manner consistent with the [www.kurzweil3000.com](http://www.kurzweil3000.com) Column Notes menu on a laptop or desktop computer.

### Tools enabled

- Open new Column Notes
- Open existing Column Notes
- Extract highlights To Column Notes
- Extract highlights To Vocabulary Study Guide
