

## Web subscription - Read the Web browser extension – read input fields

### 1. \_\_\_\_\_

After information is entered into an input field you can place the cursor in the field and read the contents.

To read the entire field click at the beginning of the answer, so that the cursor is before the first word. The section to be read will be highlighted in a single color as seen here.

This is an example with a small comment field. True or False:  $1+5=6$ ?

True  
 False

switch the numbers and add 1 to 5 to get 6

To read a section of the text use the cursor to highlight the section you want read. Show here:

switch the numbers and add 1 to 5 to get 6

Once the selection is chosen, click Read.

The selection to be read will be highlighted.

switch the numbers and add 1 to 5 to get 6

To move on simply move the cursor too the next desired location.
